Do you think this is okay to send?:

Hi Ex. 6 Personal Privacy (PP)

To follow up on this chain, is there an estimated date of completion for the review of the human health information provided to EPA in March? Again, this is not on an estimated month of completion list because CCD does not have sufficient information to make such an estimate without RAD's review of this information – it is on the hair on fire list, though. The submitter has expressed that they have lost customers due to the length of time this is taking. I need to talk to them today, as I'll be away tomorrow through August 14, returning the 15th. If the review is completed while I'm on leave, Ex. 6 Personal Privacy (PP) should be notified so that she can send the submitter the results.

Thanks,

Ex. 6 Personal Privacy (PP)

Thanks Ex. 6 Personal Privacy (PP) but our request is only to have the data that were submitted in March reviewed. We don't currently need the health report updated.

Please ignore the email.....

I closed NCR and relogin – it's there. But I don't see HLTH rpt under Documents – need to find out where it is and if it's in current format.

Will update the group later.

Thanks!

Is the case # correct? It's not in the tracking sheet, Ex. 6 Personal Privacy (PP) folder, or in NCR.

Thanks!

I never heard back from anyone on this email and I need to contact the submitter today. It seems like additional elevation is needed to get the data reviewed.

Thanks,

Hi all,

I wanted to check in on the status of this, to see if we at least have an estimated completion date for the review of the material provided? I have to contact the submitter again this week.

Thanks,

Hi all,

While the case may not be on the July list (because that list is based on completion, which cannot be estimated without knowing the results of RAD's review of this information submitted in March), I do want to make sure it's noted that this is on the hair on fire list and has been for some time now. The submitter has previously been told that the data would be reviewed in June and by the end of last week.

I appreciate everyone's help in resolving this as quickly as possible.

Thanks,
